The Annual Update page is intended to provide some general guidance for mentors, practice teachers and managers regarding the maintenance of the Nursing and Midwifery Council ‘Standards to support learning and assessment in practice’ (NMC, 2008).

All staff recorded on their local placement mentor register as a mentor/sign-off mentor for pre-registration nursing students or practice teacher for post-registration nursing students, must demonstrate their knowledge, skills and competence on an on-going basis (NMC, 2008).
