### ACADEMIC INFORMATION

In the meantime, around thirty outside personalities such as artists, philosophers, researchers, theorists, writers... are invited every year to take part in the courses.</p>

In some Teaching Units, students may decide to choose Lesson Units for obtaining the 30 ECTS required for validating their semester. This method promotes the choice, initiative and commitment of students who are responsible for their course and who build up the way it moves forward.</p> <p><b>Regular and active attendance to courses</b> is compulsory at ESACM; this will be part of the assessment criteria.</p>
<p><b>System of assessment</b></p>	<p><b>Two types of assessment</b> are used together: on-going assessment by heads of each Lesson Unit and at the end of each semester assessment by a teachers' college. The incoming students will be assessed in the same conditions as the ESACM students. If necessary some part of the work and of the assessment could be done in English (written statement on the work, oral presentation...)</p> <p><b>Credits are awarded in relation to both quality and quantity</b> (attendance, motivation, quality of work produced, dialogue with teachers). For proper assessment of work and projects undertaken, credits are scored using local scores graded from 0 to 20. An average score of 10 out of 20 is required within each UC for acquiring the corresponding credits. To ensure results are comprehensible worldwide, <b>local scores are converted to ECTS points in line with EU norms</b>. A comparison table with numeric and ECTS grading scale is provide with the transcript of records.</p>
